

PREMIUM GLOBAL GROUP

Fueling the Future with Green Energy,
Promoting Eco-Friendly Practices.

INTRODUCTION

TO THE PARENT COMPANY - PREMIUM GLOBAL GROUP:

Rooted in the core principles of sustainability, innovation and efficiency, Premium Global Group was officially launched in 2007,

beginning with our maiden venture- MIS Logistics. It has been a truly versatile journey from then, beginning with logistics and expanding across industries such as Petroleum waste management, Refining processing, Used oil recycling, Engineering, Fleet management, Oil and battery, Biodiesel, Food and Beverage, Biodiversity and the list goes on. In the 15 years of existence in multiple fields, Premium Global Group has always strived for excellence, and exceptional quality in every service that we provide.

CHAIRMAN'S MESSAGE

As a diversified holding company, we are active in a wide range of industries, including Trading, Logistical Services ,Refinery, Environment solutions , Environmental Service, Food & Beverage , Fleet Management Waste management & Oily Sludge Treatments. Wherever we operate, we strive to ensure that PGS takes a balanced approach, adding value through managerial capabilities and local knowledge, as well as taking significant care to consider the community, people and the surrounding environment through a wide range of corporate and socially responsible initiatives.

The vision of Company was to create a tremendous corporate body which contributes to implementing the development projects in Oman, India and the G.C.C, and to gain confidence of all parties who work with us, and whom we work for, in order to implement our projects with the highest workmanship and professional standards and business ethics.

We are proud of our past and passionate about our future and look forward to continuing our success alongside each of our partners.

Noushad Rahuman
Founder and Chairman

HISTORY AND MILESTONES:

Premium Global Group is a diverse conglomerate that has achieved several milestones in various industries, including:

- Establishing Muscat International Shipping and Logistics LLC, its first venture into transportation and logistics assistance.
- Leading the used oil trading industry with Premium Global Services within three years of inception.
- Introducing Premium Global Engineering to facilitate oil and gas engineering product supply and agencies.
- Entered petrochemical trading through Smart Systems Solutions in Dubai.
- Establishing a prominent position in the food industry with Cakes and Cakes, a food and beverage company with multiple branches in Kerala, India.
- Creating Premium Global Environmental Services, its largest plant dedicated to sustainable waste management practices, that uses advanced technologies to convert used engine oil to base oil and promote green energy.

- Expanding its logistics offerings with International Premium Global Shipping in Dubai.
- Entering the fleet management industry with Primex, Premium Global Group also offers outsourcing services for drivers and helpers to leading businesses, showcasing the company's commitment to providing comprehensive solutions to diverse industries.
- Premium Global Group has invested in Duqm's Multipurpose Semi-Refinery, which produces various petrochemical products from crude oil. Additionally, the establishment of Premium Global Recycling LLC offers a complete waste management solution for all types of petroleum waste liquid or sludge.
- Revolutionising energy landscape with sustainable solutions - PGS Biofuel Plant
- Expanding the trading and supply of petrochemicals through Premium Global Petrochemicals Trading LLC

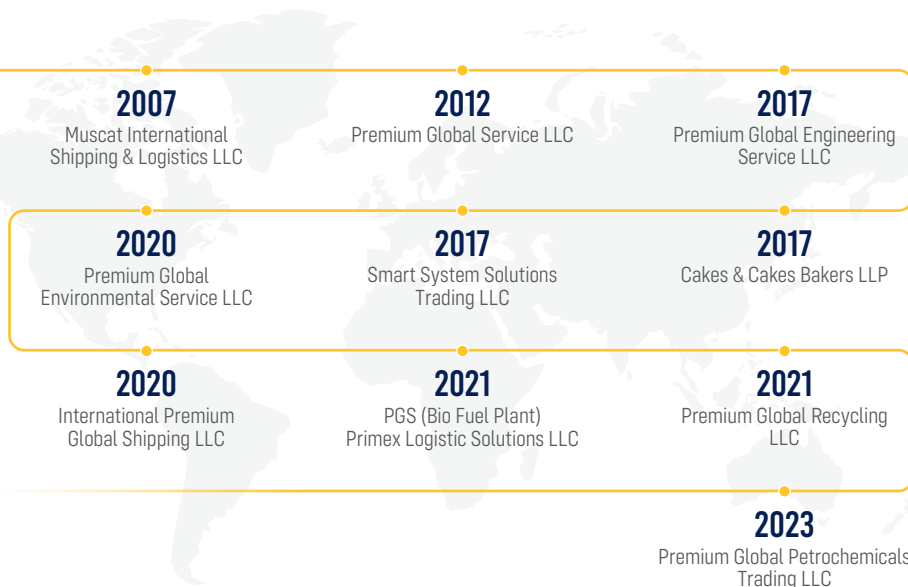

Overall, Premium Global Group has demonstrated a commitment to diversification, sustainability, and innovation, and continues to seek new opportunities for growth and success.

VISION AND MISSION:

PGS group is a brand name known for its commitment to the environment. It contributes towards ensuring the recycling of polluting and hazardous used oil. Our product suite ranges from standard reclaimed base oil to the latest lubricant, which meets the requirement of manufacturers. Our close cooperation with our channel partners and customers have given us detailed knowledge of the conditions and circumstances applying in each sector.

Experience, knowledge and development permeate our history and our current operations. This means we can take responsibility for the entire value chain from research and development to the production of lubricating solutions for tomorrow without compromising on the environment.

Our vision is to become the preferred partner of choice for delivering high quality products with value addition through innovation and technical excellence, within the region.

PGS LLC has been a leading global trading company for over 12 years. We specialize in Oil and Petrochemical Trade, Industrial Supplies, Waste Management, and Water Treatment. Our Waste Oil Management has been certified since 2010, and we're proud to be approved by the Environmental Protection Unit in Oman to collect millions of gallons of used oil from parts of Oman using our fleet of trucks and tankers.

Additionally, we have long-term contracts with government entities for various services, including industrial equipment supply, transportation, disposal of hazardous and non-hazardous waste and movement of heavy equipment. Our expertise in Oil Supplies, Waste Management, Petrochemical Trade & Sustainable Energy allows us to use our own logistics for management. We've developed our own sourcing network and storage facilities, giving us a deep understanding of market demand and supply for major recyclers and supply sources.

Join us in our mission to create sustainable future.

PREMIUM GLOBAL ENVIRONMENTAL SERVICES LLC (OMAN - SOHAR)

Services

- | Sustainable waste management practices
- | Promote green energy by using advanced technologies to convert used engine oil to

Products

- Base Oil
- LDO
- Furnace oil
- Lubricant Oil

A major player in Used Lube Oil Re-refining segment in Oman, Premium Global Environmental Services LLC operates a state of the art Used Oil Recycling Plant in Oman with a capacity of 30,000 MT per annum. Our plant is located in Sohar Industrial Estate Oman, here we accept all kinds of petroleum waste in liquid form, like lubricant oil, transformer oil, hydraulic oil, ship oil, Oil Contaminated Water, FOBS and Slop. Our facility is based on the latest technology that recycles used oils with no harm to the environment, recycling 99.9% to zero waste.

We are registered with many governmental agencies for collecting and importing used lube oil from GCC for re-refining and producing consistent and high quality Lube Base Oils of various grades, in an environmentally friendly manner. Our products are Base oils and Furnace oil in various grades.

RECYCLING SERVICES LLC**

PGS BIOFUEL (OMAN)

Services

Used cooking oil refined into biodiesel

The PGS Biodiesel Plant was established with an intention to address the serious environmental and health hazards that increase with the ever rising fuel requirements in the market. It seeks to achieve Oman's self-sufficiency vision by 'value-addition' and 'job creation' in the country. Making good use of the state-of-the-art facilities and advanced technologies, we produce bio-diesel as per international standards.

Biodiesel is a clear liquid that aids in extending the life of diesel engines as it is more lubricating than the conventional petroleum or diesel fuel. It is also safe to handle and poses little to no risks to humans. It is estimated that Biodiesel lowers particulate matter by 47%, reduces hydrocarbon emissions up to 67%, and reduces smog. It also reduces wastewater production by 79% and hazardous waste by 96% as compared to the production of petroleum diesel.

PREMIUM GLOBAL
ENVIRONMENTAL SERVICE LLC

MUSCAT INTERNATIONAL SHIPPING & LOGISTICS LLC (OMAN)
